## 12 people have recommended Srinivas

"Srinivas is knowledgeable and helping. its always delight to interact and work with him. His vast experience in various domains and industry interaction keeps you updated with latest best practices. If you need to convey & convince a senior executive of your company then Srinivas is THE best bet."

— **Karteek S Bhatt**, worked directly with Srinivas at Goldman Sachs

"Srinivas has been a fantastic mentor and guided me at various crucial junctures in my professional career. He has provided some highly innovative ideas by leveraging his excellent domain knowledge. More importantly he has been willing to put in that extra effort on execution making him a great asset to the organization. I have thoroughly enjoyed working with Srinivas and look forward to an opportunity to do so again."

— **Aditya Bagri**, worked indirectly for Srinivas at Goldman Sachs

"During my time with KPMG India, and even still, Srinivas has been an inspiring leader and mentor. His entrepreneurial coaching and leadership motivated me to put my best foot forward at all times. He is easy going, approachable, and a great people manager - this quality coupled with his professional approach enables him to provide objective advice and guidance. Overall, Srinivas has been an excellent manager and I hope our paths cross again in the near future. I wish him the best."

— **Swetha Ramjee**, reported to Srinivas at KPMG

"As my performance manager, Srinivas was my mentor and guide at KPMG. His excellent knowledge on the workings of various industries and his commitment to grooming talent within the organisation, made him the first person I looked up to for any advise or guidance. In addition, Srinivas is also extremely professional in his approach and has great inter-personal and networking skills. I have learnt a lot during my interactions with him and look forward to an opportunity to work with him again."

— **Suchitra Varadarajan**, reported to Srinivas at KPMG

"I worked with Srinivas on multiple engagements. During my interaction with him, what was noteworthy about him were his excellent people skills (including client,internal team, across levels in organizations) immaculate project management skills and depth of knowledge on his practice areas. Srinivas has been a mentor for me and has always been approachable on matters related to project execution, career growth etc."

He has always been honest with his feedback, helping me identifying development areas and thus been a great mentor, one I could always walk upto."

— **Shilpa Rastogi**, reported to Srinivas at KPMG

"I have worked extensively with Srini during his stint at KPMG. He has been a wonderful mentor to me and I would like to emphasize on his three qualities which I find worth emulating - 1. Relationship Management - he shared such an excellent rapport with all his clients and colleagues that I think he should consider writing his own take on 'How to Win Friends and Influence People' :) 2. People Management - A very approachable person who is considerate of his team's needs and aspirations, his willingness to listen and provide an honest feedback make him a true People's Manager. 3. Client Focus - At each step of an engagement, his focus was purely on meeting / exceeding client's requirements. While planning for an engagement or reviewing the deliverable, thinking from a client's perspective is most important to Srini."

— **Srijit Menon**, reported to Srinivas at KPMG

"If I have to write something about Srini, words would fail to praise him. But let me try...whatever, I know about InfoSec today is because of Srini. Had he not had the patience and persistence in educating a non-IT guy with the tricks of InfoSec, I wouldn't have succeeded in implementing it at PharmARC. I haven't seen a frown on his face when I couldn't understand the IT lingo. Instead he came up with explanations, alternatives or rolled up his sleeves and helped me see the light. With a keen eye to detail, deadline and deliverables, you are assured that things will get done. He doesn't need my wishes for success he has capabilities to succeed and am sure he will."

— **Chetan Umrotkar**, was Srinivas's client

"When we put all amazing qualities into one person, what we get is Srinivas PBS. Yes, I have not seen anyone with such great qualities, abilities, strengths be it professional, personal or academic. I am, like any of his close friends, very lucky to share a good camaraderie with him."

— **Ashok Soma**, worked directly with Srinivas at KPMG

"Srini (as he is known by in KPMG) is a wonderful person by heart. I met him for a brief time but I was very much moved by his sense of co-cooperativeness and openness. He is ambitious and that's what makes him strive for excellence in almost all the assignments that he undertakes. I've undergone the immense highs and lows of team building in my experience of the current successful startup at iViZ. I somehow have developed the nasty yet correct gut feeling of who can deliver and who can not. And I assure Srini is one of the category who will always deliver to the best of his capabilities - no matter what the adversaries are. That's all I can say :)"

— **Rudra Kamal Sinha Roy**, was with another company when working with Srinivas at KPMG

"Srini is a wonderful personality I have ever met. I have spent more than 2 years with him in Microland and KPMG. A person whose advices are worth to make your vision clear. Down to earth guy, very friendly and true professional. I would always admire this personality in my life and feel lucky to have such a great friend."

— **Ritesh Wani**, worked with Srinivas at KPMG

"Srini, as we use to call him, is a thorough professional. He brings significant committment and competence in delivering on the areas of his responsibilities. Loaded with infinite energy and desire to excel, he is a definite asset for any organization."

— **Muktesh Kulkarni**, managed Srinivas at Microland Limited

"Srinivas is a very intelligent, workaholic and sincere about the things, which he has planned to do. A perfect gentleman in organizing his duties."

— **Dr Yedukondalu Kamatham**, studied with Srinivas at Cochin University of Science and Technology
