

Ravi J

Senior R & D Engineer

Summary

I have tremendous experience in automotive industry from the past 8 years.

Worked with 3 Major giants i.e Robert Bosch, Nissan Motors and Tata .

*Began my career with Tata group . It was a great learning curve for a fresher stepping into the industry with BIG DREAMS.

*Then took the decision to join the Automotive giant Nissan Motors. I was involved in the R & D department , specifically in Chassis . This experience took me from a fresher stage to a Professional automotive engineer stage.

*And presently i'm working with BOSCH Group , helping them in New product development , strategic planning and identifying the new business trends.

*Created a good portfolio of thermal products in Australia which creates a revenue of 40 million \$ yearly.

*Profile is rated in top 1% among 2500+ Connections over the LinkedIn network.
